

## SQUASH LIST 2011

<u>NAME</u>	<u>DAYS TO MATURITY</u> * -	<u>DESCRIPTION</u>	<u>TYPE</u>
<b>SUMMER SQUASH</b>			
Aristocrat Zucchini	50-53 days	loads of straight, smooth, dark green fruits set higher on plants for easy picking; AAS in 1973	F1 hybrid
Balmoral Patty Pan	70 days	unique, patty-pan shaped, big (6-8 in.) scalloped white fruit; neat and compact habit, 2 ft. x 2 ft, suitable for container; mild flavor, high yields	F1 hybrid
Black Beauty Zucchini	50-60 days	glossy, blackish green; best picked at 5-7 in.; compact habit; AAS in 1957	Open pollinated
Burpee Hybrid Zucchini	50 days	prolific producer of thin-skinned, medium-green fruits; vigorous compact plants	F1 hybrid
Early White Bush Patty Pan	49 days	creamy white skin and scalloped edges, with tender white interior; bush-type plants	Open pollinated
Eight Ball Zucchini	50 days	dark green, shiny, round; open bush plant; long picking season; 1999 AAS winner	F1 hybrid
Gadzukes Zucchini	55 days	deep ridges makes this zucchini look like a star when sliced; emerald green with paler green stripes; delicious nutty, creamy flavor	F1 hybrid
Goldbar Zucchini	53-60 days	prolific producer of high-set, yellow, slightly bumpy squash with firm white flesh; good for stuffing, grilling	F1 hybrid
Goldrush Zucchini	49-52 days	gold-skinned, slender, straight; ample yields of uniform, high-set fruits; AAS in 1980	F1 hybrid
Papaya Pear	42-45 days	pear-shaped with bright-yellow skin and tasty, tender flesh; best to harvest at 3 1/2 in. length; good stuffed, steamed, grilled; AAS in 2003	F1 hybrid
Peter Pan Patty Pan	50 days	scalloped, light green fruits, meaty and flavorful; vigorous plants produce over long period; AAS in 1982	F1 hybrid
Summer Crookneck	50-55 days	high yields of meaty, firm, fine-textured fruits, bumpy and bright yellow with curved necks; best picked 4-6 in. long; freezes well	Open pollinated
Sunburst Patty Pan	50-55 days	yellow with scalloped edges; tender, mild white flesh; best harvested at 3-4 in. wide; AAS in 1985	F1 hybrid
Sundance Crookneck	50-60 days	smooth, glossy yellow with curved neck; good fried, steamed, baked, raw; fine for freezing; compact plants	F1 hybrid
Tromboncino	65-80 days	Italian variety; light-green, long and curving with bulbous ends; best at 8-10 in., can grow to 36 in.; vines more than most summer squashes	Open pollinated
Zephyr	54 days	straightneck; unique two-tone fruits, yellow with lime-green blossom ends; firm flesh with nice nutty flavor, best at 4-6 in.	F1 hybrid

## SQUASH LIST 2011

<b>WINTER SQUASH:</b>			
Bon Bon Buttercup	81-95 days	greenish-black, flattened, turban-shaped, 4-5 lb. fruits with sweet, smooth, golden flesh; semi-bushing plants tolerate powdery mildew; stores very well; AAS in 2005	F1 hybrid
Chicago Warty Hubbard	105 days	deep-green, warty, 15 in. long with orange-yellow flesh; excellent for pies, canning; good keeper	Open pollinated
Delicata	95-100 days	sweet, delicate, golden flesh; 1.5-2 lbs., 7-9 in. oblong, thin creamy skin with green stripes; good for stuffing, baking; no curing necessary, long keeper	Open pollinated
Early Butternut	80 days	smooth yellow/tan skin, fine-textured orange flesh; semi-compact plants; very long storage; AAS in 1979	F1 hybrid
Honey Bear Acorn	85 days	delicious, sweet and starchy, 4 in. mini-acorn, weighs 1-1.25 lbs., perfect for single servings; compact bush resists powdery mildew; 3-4 fruits per plant	F1 hybrid
New England Hubbard	100-110 days	large and oval, 20 in. long and up to 45 lbs., with pebbly, blue-gray rind and smooth, deep-yellow flesh; keeps very well	Heirloom, open pollinated
Pink Banana	105-120 days	jumbo, torpedo-shaped, pink-blushed yellow squash can reach 30 in. and 50 lbs.; sweet, tender, orange-yellow flesh	Heirloom, open pollinated
Sunshine Kabocha	95-100 days	flattened, 3-5 lb. squash with vivid red-orange rind and fine orange flesh that's sweet, nutty, not fibrous; great for baking, mashing, pies, good raw too; AAS in 2004	F1 hybrid
Sweet Dumpling	100 days	small, 1/2 lb., 4 in., teacup-shaped; ivory with green stripes and sweet orange flesh; single-serving size, fine for stuffing and baking; excellent for storage	Open pollinated
Sweet Mama Kabocha	85 days	glossy, dark-green, 3 lb. fruits with very sweet, nutty, yellow flesh; long storage; AAS in 1979; bush habit, great for small gardens	F1 hybrid
Sweet Meat	105 days	round, 10 lb. +, hard-shelled blue-grey squash with deep orange, sweet, dry, thick, stringless flesh; superb keeper - sweetens over time; excellent for baking, soups, squash recipes, pies; vigorous, 10 ft. vines	Heirloom, open pollinated
Table King Acorn	65-75	vigorous, bush-type plants produce dark green, 5 in. x 6 in. fruits with thick, fiberless orange flesh; AAS in 1974	Open pollinated
Turk's Turban	100-105 days	as name indicates, turban-shaped; 8-12 in. across, bright orange with markings of white, red, green; good baked	F1 hybrid
Vegetable Spaghetti	70-110 days	8-10 in. oblong, 2-3 lb. squash with mild-tasting, spaghetti-like interior, great served with sauce and grated cheese; stores well	Open pollinated
