Variety	*Growth habit	Fruit size	Description	Type
Large Tomatoes				
Anthony's Passionate Heart	Indeterminate 72 days	1 lb.	Oxheart, a cross between Amish Paste and Sungold. Bright red, heart shaped tomatoes, bold, sweet, balanced flavor. Very productive, crack, disease, and heat resistant. Named in honor of Anthony Bourdain, beloved chef and author.	OP
Beefmaster	Indeterminate 80 days	2 lb.	Big, bright red fruit, solid, meaty, flavorful, low acidity . Good yields. VFNASt	F1
Beefsteak	Indeterminate 69-80 days	Over 1 lb.	Good yields of large, ribbed, solid, meaty tomatoes, excellent for slicing, canning . VFN	OP
Better Boy	Indeterminate 75 days	Over 1 lb.	One of the most popular hybrids. Plump, juicy, deep red tomato. VFNASt	F1
Big Beef	Indeterminate 73 days	9-16 oz.	Smooth, globe shaped fruits; exceptional yields of delicious fruits in almost any climate or soil. Great old-fashioned flavor. 1994 AAS winner. VFfNTASt	F1
Big Boy	Indeterminate 78 days	10-16 oz.	Bright red fruit, firm and meaty, with superb flavor and aroma. Hugely popular since 1949. Resists cracking. VFT	F1
Big Zac	Indeterminate 80 days	4-6 lbs.	Bred by Minnie Zaccaria of New Jersey. Fabulous flavor, a cross of a red and a pink heirloom beefsteak. Glossy, meaty, enormous red fruit; ideal for sandwiches and slicing; disease resistant.	F1
Delicious	Indeterminate 77 days	1+ lb.	Sweet, smooth, meaty red fruits; crack resistant; have few seeds ; excellent for salads, tomato juice, and canning (requires additional acid). Low acidity .	OP
Goliath (Original)	Indeterminate 65 days	10-15 oz.	Sweet, luscious, bright red to dark pink fruits; tremendous yields in only 65 days. Grows anywhere and is very disease resistant. Excellent flavor for sandwiches, salads, slicing; great for canning . VFFNTAStTMV	F1
Park's Whopper CR Improved	Indeterminate 65 days	14 oz.	Highly productive, crack resistant and disease resistant vine produces large, great tasting, meaty, juicy fruit. Great for salads and sandwiches. VF1F2NT	F1
Supersteak	Indeterminate 80 days	1-2 lbs.	Superb beefsteak tomato with meaty, delicious fruit - one slice can fill a sandwich. Heavy yields of extra large, smooth, beautiful fruit. Perfect for slicing, fresh juice. VFN	F1
Medium Tomatoes				
Ace 55	Determinate 75-80 days	8-12 oz.	Red oblate fruits, thick walled, solid and meaty. Balanced taste, low acidity , tops for fresh use, canning (requires additional acid and pressure canning). VFA	OP
Bella Rosa	Determinate 75 days	9-12 oz.	Round, firm, exceptionally tasty, bright red tomatoes, thin skinned but crack resistant. High yields. An excellent tomato for sandwiches, slicing and salads. Heat-tolerant (and a good thing, considering our recent summers!) and extremely disease resistant: V, FF, N, A, St, TSWV. This tomato is a trooper!	F1

STANDARD TOMATOES 2023

Better Bush	Determinate 68 days	6-12 oz.	Large, sweet, meaty fruit on sturdy bush, excellent for containers . Produces over a long season. VFN	F1
Calypso	Indeterminate 75 days	5-7 oz.	A great tomato for our area, heat resistant, disease resistant, (VFFA), and excellent for salads, sandwiches, canning and freezing. Fruits are medium sized, bright red globes with delightful flavor.	OP
Campbell's 33	Determinate 69 days	8 oz.	One of the many tomatoes developed by Campbell's Soup Company at their research facilities in NJ. Medium early fruit, delicious, smooth, bright red with green shoulders, great for fresh eating, canning , and, of course, tomato soup. Crack resistant. VFA	OP
Carmello	Determinate 70 days	8-10 oz.	Gourmet French tomato. Juicy fruits with terrific balance of sugars and acids. Crack resistant. VFNT	F1
Carolina Gold	Determinate, 75 days	10 oz.	Yellow-orange fruit, meaty, firm, low acid. Crack resistant and disease resistant (VFF). Spherical shape, few seeds, great for sandwiches, slicing, salads, canning (will require additional acid), freezing. Try using Carolina Gold to make golden tomato sauce-a whole new flavor surprise!	F1
Celebrity	Determinate 70 days	8-9 oz.	AAS Award Winner; multiple disease resistance, highly adaptable. Abundant medium sized, globe-shaped fruits; crack-resistant, flavorful fresh or for canning . VFfNTASt	F1
Champion II	Determinate 62 days	6-8 oz.	Sweet, solid, meaty, excellent for tomato sandwiches; does well in hot, dry weather. VFNT	F1
Early Girl	Indeterminate 57-62 days	4-6 oz.	Bright red, round slicers. Firm texture and blemish resistant skin. Early, dependable, and tasty. VFf	F1
Early Pick	Indeterminate 62 days	8-16 oz.	Bright scarlet, old fashioned full tomato flavor, solid flesh. Bears fruits early, bumper crops all summer. Excellent for slicing or cooking. VF	F1
Fantastic	Indeterminate 65 days	8-10 oz.	Tasty, round, medium fruit. Wonderful for canning , heavy yields. VF	F1
Florida 91	Determinate 72 days	10 oz.	A favorite of chefs and gardeners, this tomato is very productive, even in extreme heat! It is also disease resistant (VFFASt) and crack resistant, and the plants are sturdy. Fruits are bright red, round, smooth, flavorful, perfect for slicing, salads, and sandwiches-this is one terrific tomato.	F1
Fourth of July	Indeterminate 49 days	4 oz.	A Burpee introduction. Very early, small (golf ball size), bright red tomatoes with excellent flavor; plant produces heavily until frost; fruit is carried in clusters.	F1
Glacier	Determinate 55 days	4-5 oz.	Cold-tolerant, productive, very early variety from Sweden; 2 1/2 in. round, uniform, orange-red tomatoes are excellent for salads, slicing. Potato leaf variety .	OP; cool set
Golden Boy	Indeterminate 80 days	8 oz.	Mild flavored fruit, golden yellow, globe shaped, very meaty. Excellent yields. Low acidity . FV	F1
Green Zebra	Indeterminate 78 days	2-4 oz.	Small round fruits are bright green with stripes when fully ripe (slightly soft). Incredible flavor, great for salads, salsas, canning .	OP
Hot Spell	Determinate, 68 days	7 oz.	Super heat resistant, highly flavorful, round, red, sweet and juicy fruits on a compact plant, a great salad tomato, and excellent to grow in a large container on your balcony or deck.	?

STANDARD TOMATOES 2023

Jersey Boy	Indeterminate 70-75 days	8-10 oz.	Delicious hybrid of 2 legendary tomatoes, Rutgers and Brandywine, combines Brandywine's fabulous flavor with Rutgers' color, shape, and high yields to produce an excellent beefsteak tomato.	F1
Jet Star	Indeterminate 72 days	6-8 oz.	Globe shaped fruit, low acidity , easy to digest. Mild flavor, heavy producer, good canning tomato (requires additional acid). Crack resistant. VF	F1
Jetsetter	Determinate 64 days	8 oz.	Good yields of tomatoes with rich flavor. Matures very early. Excellent in salads or sandwiches. Vigorous and disease resistant. VFFNTA	F1
Lemon Boy	Indeterminate 72 days	6-7 oz.	Lemon-like in color, far from it in flavor; fine sweet taste, a fresh addition to salads and other dishes; productive, adaptable, vigorous. VFNASt	F1
Oregon Spring	Determinate 60 days	3-5 oz.	Early variety that sets loads of meaty, excellently flavored fruit, even in cool temps. Nearly seedless, perfect for catsup, sauces. V	OP; cool set
Patio	Determinate 70 days	2 in.	Excellent container plant ; produces heavy yields of medium-sized fruits that are smooth, firm and flavorful. F	F1
Pink Girl	Indeterminate 76 days	6-8 oz.	Heavy producer of pink fruit with rich flavor, superior quality, low acidity ; disease resistant and crack resistant. VFASt	F1
Siberian	Semi-determinate 48 days	3-5 oz.	Russian tomato that sets fruit in cool weather, very early ripening, great for short growing seasons. Produces clusters of round, bright red, juicy fruits with excellent flavor.	OP; cool set
Siletz	Determinate 52-65 days	7-10 oz.	Medium to large, early tomatoes on a compact plant. Fruits are deep red, have few seeds , and great flavor. F1V	OP
Solar Flare	Indeterminate 75 days	6-10 oz.	Red tomatoes with golden stripes, sweet and tangy flavor, great sliced, in sandwiches, burgers, and salads, soups, juice, salsa, and tomato sauce. Especially beautiful and delicious! Bred by Brad Gates of Wild Boar Farms in CA	OP
Super Fantastic	Indeterminate 70 days	10 oz.	Improved Fantastic with stronger disease resistance. Great production of large, round, red tomatoes, juicy, meaty, and flavorful. Great fresh or for canning . VFNT	F1
Super Sioux	indeterminate 70 days	6-10 oz.	Outstanding performance in hot weather. Attractive, red, round tomatoes, thick walled, crack-free, great flavor.	OP
Sweet Cluster	Indeterminate 67 days	4-5 oz.	Closely set clusters of six to eight tomatoes, like the Campari tomatoes at the grocery, all ripening at the same time. Sweet, glossy red fruit; great yields, disease resistant. VFNT	F1
Sweet Seedless	Indeterminate 68-70 days	8-10 oz.	Well-balanced flavor, sweet, firm, and juicy. Virtually seedless , easy to digest. Disease resistant. VFNT	F1
Sweetie Seedless	Indeterminate 65 days	7 oz.	Very early, very sweet and juicy, bright red/orange, round tomatoes with few seeds storing sugar, so more sugar in the fruit [to get the best flavor and the fewest seeds, grow well away from other tomatoes].	F1
Taxi	Determinate 65 days	4-6 oz.	Early, prolific producer of lemon-yellow, baseball-sized fruits, smooth-skinned, lightly sweet and low-acid ; bright addition to salsa, salads; compact plant, suitable for containers .	OP
Tim's Black Ruffles	Indeterminate 78 days	8-10 oz.	Dark garnet-purple, heavily pleated tomatoes; a cross of Black Krim and Zapotec Pink Pleated; sweet and meaty; great as a slicer and makes a rich, deeply colored sauce. Productive plants are hardy and blight resistant.	OP

Totem	Determinate 70 days	3-5 oz.	An excellent dwarf variety (18-30 in.) for containers , produces medium sized round crimson fruits in vast quantities on trusses; plants are stocky and very productive.	F1
Wagner Blue-Green	Indeterminate 95 days	3.5 oz.	Lovely yellow/green tomato with blue shoulders, green flesh, sweet flavor. A round saladette, introduced by Tom Wagner.	OP
Paste (Roma Type) Tomatoes				
Big Mama	Indeterminate 80 days	3 in. x 5 in.	Very large plum shaped paste tomatoes (about the size of 3 romas); meaty, deep red, sweet; great for drying, canning , paste or salsa. Very few seeds. NT	F1
Fresh Salsa	Determinate 65-75 days	4-5 oz.	Very solid, very meaty, great not only for salsa but bruschetta, sauce and canning ; heavy producer of firm, bright-red tomatoes with few seeds. VFFN	F1
Health Kick	Determinate 75 days	4 oz.	Heavy yields of juicy, plum shaped, delicious fruits with a high lycopene (antioxidant) content, which gives a bright red color. Perfect for salads, paste, sauces, canning . Sets fruit even under adverse conditions. Resistant to VFFtASt and more.	F1
Italian Gold	Determinate 75-90 days	5 oz.	Good yields of golden orange, juicy, plum shaped fruits high in pectin, low in seeds, held in clusters. Excellent for canning , freezing, fresh eating, and for making rich, thick, golden paste and sauces. Productive, compact, disease resistant plants. VFF	F1
LaRoma 111	Determinate 69-76 days	5-8 oz.	Improved Roma variety offers exceptionally heavy yields of larger, tastier fruit, bright red and meaty, on stronger plants; great for sauces, salsas, canning . VFFNASTmV	F1
Little Napoli	Determinate 60-65 days	2-3 oz.	Compact container variety (12-18 in. high x 24-36 in. wide); bright red, pear shaped, meaty fruit with tangy flavor, excellent for salads and salsas, sauce, soup, catsup, canning , drying. Generous yields. VF	F1
Margherita	Determinate 70-75 days	5-6 oz.	Versatile red saladette, thin-skinned and meaty; good for fresh use in salsa or salad, even better for cooking, and great roasted or broiled; fine choice for canning , juicing. VF	F1
Roma	Determinate 75 days	3-4 oz.	Most well-known paste tomato. Bears heavy crops of bright red, pear shaped fruits. Perfect for salsa, sauces, canning . VFNT	OP
San Marzano	Indeterminate 80 days	3-4 oz.	Slightly later than Roma with excellent flavor. Plant produces good yields of 3 ½ in. bright red, pear shaped tomatoes, very meaty, mild flavored. Excellent for making paste, sauce, puree, and canning . Crack resistant.	OP
Super Marzano	Indeterminate 78 days	4-5 oz.	Improved San Marzano; large, bright-red fruits with high sugar and pectin content, ideal for sauce, paste, canning ; vigorous, reliable, disease resistant plants. VFNTA, bacterial speck.	F1
Viva Italia Hybrid	Determinate 72 days	3-4 oz.	Exceptionally high yielder of beautiful deep red, pear shaped fruit, with solid flesh and high sugar content. Great fresh, for freezing and canning , for sauces. VFN	F1

Small (Cherry Type) Tomatoes				
Black Cherry	Indeterminate 65 days	1 in.	Unique variety with dusky purple fruits; rich, sweet, juicy, excellent for salads and snacking; vigorous and productive.	OP
Brandy Sweet Plum	Indeterminate 75 days	2 oz.	A wonderful and unlikely tomato caused by the accidental cross of Brandywine and Sweet 100, producing pink, elongated cherry tomatoes on a potato leafed plant . Fabulous flavor, a combination of the sweetness of Sweet 100 and the complex flavor of Brandywine.	OP
Chocolate Sprinkles	Indeterminate 50-55 days	1 oz.	Beautiful, deep red, oval tomatoes striped with dark green; rich, robust flavor; carried in clusters on a disease resistant plant. Abundant yields; crack resistant fruit. F N T	F1
Green Grape	Determinate 70 days	3/4-1 in.	Very juicy, sweet, yellow/green when ripe, carried in clusters. Perfect for sauces, salsas, green catsup, garnishes, salads. FV	OP
Isis Candy	Indeterminate 67-73 days	1 in.	Multicolored cherry with red-orange-gold stripes and swirls and a star at the blossom end; sweet, fruity flavor, great yields, perfect in salads, as a snack.	OP
Jelly Bean Red	Indeterminate 65-72 days	1/2-1 in.	Grape tomato grows in clusters of 15-20; sweet burst of flavor, perfect for snacking and salads; vigorous plants with excellent disease and crack resistance. VFFfAStNT	F1
Jelly Bean Yellow	Indeterminate 65-72 days	1/2-1 in.	Yellow version of above.	F1
Lucky Tiger	Indeterminate 70 days	1-2 oz.	Oval to oblong 2 in. fruits, green with red stripes and a red blush, red and green marbled interior, fabulous sweet-tart flavor. Ripe when yellowish-green and the stripes are dark red.	OP
Mexico Midget	Indeterminate 60-70 days	1/2 in.	Super heavy producer of trusses of tiny fruit with incredible flash of rich tomato flavor.	OP
Red Grape	Indeterminate 55 days	1.5 in.	Oval to oblong fruits are firm, meaty, crack resistant, with great texture, sweet taste, and few seeds . Long clusters of 20 or more fruits. Plants bear early and continue up to frost. TFN	F1
Sugary Hybrid	Semi-determinate 85 days	2 oz.	High yields of juicy, super-sweet fruits, oval and slightly pointed, with reddish-pink skins and light green shoulders. Widely adapted. 2005 AAS Winner.	F1
Sugar Plum	Indeterminate 65 days	1 in, diam., 1/2-3/4 oz.	Long clusters of plum or grape shaped tomatoes, bright red, firm and super sweet. Plants grow 5-6 ft. tall. Terrific yields. Delicious in salads or as a snack.	F1
Sungold	Indeterminate 57 days	1/2 oz.	Perennial winner of "best cherry tomato" at the annual tomato tasting. Exceptionally sweet orange/gold cherry tomatoes borne in long trusses. Wonderful tomato flavor, high yields, long season. Developed in England. VFFNT	F1
SunSugar Hybrid	Indeterminate 62 days	1/2 oz.	Golden yellow fruits, very sweet and a bit tangy, with wonderful texture. Fruits are thin skinned, but crack resistant. Vigorous plant, heavy yields. FT	F1
Super Sweet 100	Indeterminate 65 days	1 in.	Hybrid cherry with fabulous taste. Fruits are produced in long clusters and are sweet and juicy. Extra high in Vitamin C. VFN	F1

Sweet Aperitif	Indeterminate 80 days	1/2 oz.	Another amazingly sweet cherry from England (higher sugar content than Sungold!); delicious, tangy-sweet, pinkish-red fruits are carried in trusses on very large, very productive plants. Thin-skinned, crack resistant fruit.	OP
Sweet Baby Girl	Indeterminate 65 days	1 oz.	Long trusses of super-sweet cherry tomatoes, bright red, thin skinned, crack resistant. More compact and manageable than most indeterminates (short internodes-the space between branches). TMV	F1
Sweet Million	Indeterminate 65-75 days	1-1.5 in.	Long clusters of dark red tomatoes; crack-resistant fruits with superb flavor; highly productive, with excellent disease resistance. VFFNTSt	F1
Sweet 100	Indeterminate 65-70 days	1/2-1 in.	A garden favorite, producing 100 or more scarlet, cherry size fruit in long, multiple branched clusters; fruit is high in Vitamin C and very sweet. FVNT	F1
Terenzo	Determinate; 56 days	3/4 oz.	Very early, 1.75 in., red cherry; firm and crack-resistant, with truly outstanding taste; dwarf, trailing plant is perfect for hanging baskets and other containers ; AAS Winner in 2011.	F1
Tiny Tim	Determinate 60 days	1/2-1 in.	Dwarf plant for small gardens or containers , plant grows only about 15 in. high. Round, bright red, cherry size fruits in clusters are tasty and great for salad.	OP
Tomatoberry Garden	Indeterminate 55-60 days	2 oz.	Beautiful, deep red, strawberry-shaped tomatoes with outstanding sweet flavor. Firm, crack resistant fruit held in long clusters; plants are very productive and disease resistant. FNT	F1
Tumbling Tom Yellow	Determinate 45 days	1.25 in.	Patio variety, bushy plant perfect for containers . Produces lots of tasty, bright yellow, bite sized fruit on trusses that cascade over the edge of the container. VFN	F1
Very Cherry Cascade	Determinate 50 days	1 oz.	Bushy, cascading (grow down, not up) plants bear bright red, sweet fruit all summer long, perfect for snacking, sautés, pastas, kabobs and salads. Great tomato for containers or hanging baskets , or you can train vertically on a trellis.	F1
Yellow Currant	Indeterminate 70 days	1/3 in.	South American species of tomato. Long, grape-like clusters of tiny 1/3 inch yellow cherry tomatoes, sweet, with an intense tomato flavor.	OP
Tomatillos and Ground Cherries				
Note:				
Tomatillos and ground cherries seem to do better when there are 2 plants, perhaps because this increases opportunities for cross pollination; in addition, it's good to plant flowering companion plants with them to attract more bees. Also, store tomatillos and ground cherries in the refrigerator with the husk on if not using immediately.				
Aunt Molly's Ground Cherry	Indeterminate 70 days	1/2-3/4 in.	Sweet golden ground cherry used for preserves, pies, over ice cream, in smoothies, or in fresh fruit salads. Fruits are produced in a papery husk that turns brown when the fruits ripen but does not split like a tomatillo husk. Often, they'll fall off the plant when ripe, and can be harvested from the ground around the plants - that's why they're called "ground cherries." Can be stored 3-4 weeks in the husk. Sprawling, productive plants.	Heirloom, OP

V- Verticillium Wilt
F- Fusarium Wilt
Ff- Fusarium, race 1 2

N- Nematodes
T- Tobacco Mosaic Virus
A- Alternaria Stem Canker
St- Stemphylium
Gray Leaf Spot

Grande Rio Verde Tomatillo	Determinate 90 days	3 oz.	Heavy yielding plant produces large, yellow-green tomatillos for salsa verde; papery husk will split as it ripens - fully ripe when the fruit falls from the plant - pick earlier for tangier flavor.	OP
Purple de Milpa Tomatillo	Semi-determinate 70 days	2-3 oz.	Wild tomatillo from Mexico, typically grown in the family corn field (the 'milpa'). Deep purple, sweet and tart - sweeter than green tomatillos, delicious eaten fresh off the plant, colorful in recipes. Small fruit (3/4 in.) does not always split husk when ripe; tomatillos become more purple after harvest and husk removal.	Heirloom, OP
Tamayo Tomatillo	Determinate 65-70 days	2.5-3 in.	Tall, vigorous plants produce abundant green, husk covered fruit. These tomatillos are very large and carried on sturdy plants; have above average shelf life (2-4 wks. in fridge); harvest when paper husks split. Sweet-tart, juicy, crunchy fruit is great for salsa, Mexican recipes.	F1
Determinate			Determinate tomatoes reach a certain height and stop growing. The plant is compact and manageable. Most fruit is borne over 4 to 6 weeks.	
Indeterminate			Indeterminate tomatoes continue to grow and flower throughout the season, so they grow longer vines and need more support. They have less mature fruit at any one time.	
Tomato Companions:			Asparagus, basil, beans (? some say yes, some say no), bee balm (monarda), borage, carrots, celery, chives, cucumber, garlic, onions, oregano, peas, lettuce, spinach, arugula, marigold, mint, nasturtium, parsley, calendula, sage, thyme. Tomatoes are said to dislike corn, kohlrabi, potatoes, cole crops, mature dill, fennel.
